

Project Site Civil Engineer & Phase Manager

LandWorx is an innovative, sustainable, community centric exterior design firm. We fill the gap that exists between an idea and successful project completion. We are a team that is driven by improving ourselves and our community. We try to embody our company tenets in everything we do: Ingenuity, Equity, Enrichment, Empathy, Reliability, and Authenticity.

We concentrate on design to create functional and impactful spaces for our communities, clients, and team members.

The successful candidate for this position will be involved in a wide variety of site-civil engineering projects including mixed use, commercial, institutional, and recreational. No two projects are ever the same and it is fast moving - you will likely get to see projects that you work on become realities. LandWorx will treat you as a professional who communicates well, wants to learn and grow in your profession, and fulfills your responsibilities. In return, we believe our employees should then be able to grab a long lunch, go to the dentist, stay home sick, take vacations, and support their chosen organizations without having to fill out six forms and approvals in triplicate!

Responsibilities may include:

- Preliminary layout and design
- Research and scoping
- Plan production
- Construction site visits
- Client / partner interaction
- Tracking community impact, effort, and profitability for phases and projects
- Attending professional organization events
- Training and being trained

Successful candidate will:

- Be passionate about learning and growing in their career!
- Be a successful problem solver.
- Be an effective communicator!
- Have a Bachelor's Degree in Civil Engineering
- Have 1+ Years Experience in Site Civil Engineering

- Be working towards or have completed E.I.T. and/or P.E. licensing
- Have strong AutoCAD skills
- Have a positive attitude and willingness to challenge themselves!

Preferences will be given to:

- Civil 3D experience
- Survey or construction experience
- LEED, Green Infrastructure, Sustainable Sites, or similar affiliations

Job Type: Full-time

Pay: \$75,000.00 - \$90,000.00 per year

Expected hours: 40 per week

Benefits:

- Company paid premiums - dental insurance
- Company paid premiums - life insurance
- Company paid premiums - vision insurance
